

Genre	Sous-genre	Section	Sous-section	Espèces		
Quercus	Quercus (267)	Protobalanus (5/5)		<i>cedrosensis, chrysolepis, palmeri, tomentella, vacciniifolia</i>		
		Ponticae (2/2)		<i>pontica, sandleriana</i>		
		Virentes (6/6)		<i>brandegeei, fusiformis, geminata, minima, oleoides, virginiana</i>		
		Quercus (47/151)	Roburoid (9/20)		<i>aliena, dalechampii, fabri, macranthera, mongolica, petraea, pontica, robur, sadleriana</i>	
			Lobatoid (9/9)		<i>berberdifolia, cornelius-mulleri, douglasii, dumosa, durata, lobata, garryana, john-tuckeri, pacifica</i>	
			Albae (3/3)		<i>alba, montana, michauxii</i>	
			Prinoid (5/5)		<i>bicolor, lyrata, macrocarpa, muehlenbergii, prinoides</i>	
			Stellatae (9)		<i>austrina, boyntonii, chapmanii, havardii, oglethorpensis, margarettae, similis, sinuata, stellata</i>	
			Polymorphae (5)		<i>laceyi, mohriana, polymorpha, pungens, vaseyana</i>	
			Leucomexicanae (7/100)		<i>arizonica, copeyensis, engelmannii, grisea, insignis, rugosa, turbinella</i>	
		Lobatae (17/119)	Agrifoliae (4/4)		<i>agrifolia, kelloggii, parvula, wislizeni</i>	
			Palustres (2/2)		<i>palustris, georgiana</i>	
			Coccineae (6/8)		<i>coccinea, ellipsoidalis, robusta, shumardii, tardifolia, texana</i>	
			Laurifoliae (5/15)		<i>Imbricaria, laurifolia, myrtifolia, phellos, pumila</i>	
			Erythromexicanae (0/90)			
	Cerris (133)	Cerris (13/13)			<i>acutissima, afares, brantii, castaneifolia, cerris, chenii, crenata, ithaburensis, libani, macrolepis, suber, trojana, variabilis</i>	
			Ilex (35/35)		<i>acrodonta, alnifolia, aquifolioides, aucheri, baloot, baronii, coccifera, cocciferoides, dolicholepis, engleriana, floribunda, franchetii, giliana, guyavifolia, handeliana, ilex, kingiana, lanata, leucotrichophora, lodicosa, longispica, marlopensos, monimotricha, oxyphylla, pannosa, phillyreoides, rehderiana, semecarpifolia, senescens, setulosa, spinosa, tarokoensis, tungmaiensis, utilis, yiwuensis</i>	
		Semiserrata (36/36)	Gemelliflorae (9/9)		<i>gemelliflora, kinabaluensis, treubiana, valdinervosa, mespilifolia, quangtiensis, blakei, chrysocialix, platycalyx</i>	
			Semiserratae (12/12)		<i>elmeri, longistyla, semiserrata, langbianensis, xanthoclada, macrocalyx, kouangsiensis, tsoi, edithae, auricoma, pachyloma, hui</i>	
			Chapensis (1/1)		<i>chapensis</i>	
			Chrysotrichae (5/5)		<i>chrysotricha, merrillii, arbutifolia, litseoides, phanera</i>	
			Eumorphae (1/1)		<i>eumorpha</i>	
			Oidocarpa (8/8)	Pseudoverticillatae (1/1)		<i>pseudoverticillata</i>
				Oidocarpae (4/4)		<i>oidocarpa, subsericea, kerangasensis, sumatrana</i>
				Niveae (3/3)		<i>nivea, percoriacea, lowii</i>
			Cyclobalanoides (3/3)		<i>argentata, jenseniana, augustinii</i>	
			Glauca (15/15)	Lineata (1/1)		<i>lineata</i>
		Lamellosae (2/2)			<i>lamellosa, thomsoniana</i>	
		Oxyodontes (5/5)			<i>oxyodon, lenticellata, patelliformis, hilldebrandii, brevicalyx</i>	
		Glaucæ (7/7)			<i>glauca, salicina, chevalieri, djiringensis, rupestris, myrsinifolia, miyagii</i>	
			Helferiana (11/11)	Helferianae (8/8)		<i>rex, fructiseptata, helferiana, kerrii, austrocochinchinensis, thorellii, gomeziana, dussaudii</i>
				Subpedicellatae (3/3)		<i>brandisiana, gaharuensis, steenisii</i>
	Acuta (3/3)		<i>actua, morii, nubium</i>			
	Gilva (5/5)		<i>lobbii, hunanensis, delavayi, chungii, gilva</i>			
	Lepidotricha (4/4)		<i>braianensis, hypophaea, poilanei, championii</i>
